## **MYAC Welcomes Back Alum for Marketing Position!**

MYAC is excited to welcome Nina Badagliacco as a full-time Marketing Assistant! Nina recently earned her Bachelor's in violin performance from Lake Forest College and plans to pursue a master's degree in the next few years. Prior to graduating, Nina served as an intern at MYAC during her final year of undergrad. Nina has studied the violin for over 14 years and is extremely grateful for all of the opportunities that MYAC has offered her both when she was a student and now as an employee. Nina is also a full-time member of the Elmhurst Symphony Orchestra and studies privately with violinist Kate Carter in her studio at Northwestern University.

Nina initially discovered MYAC while searching for orchestra programs online in high school. She had been a member of CYSO (Chicago Youth Symphony Orchestra) for two years prior to joining MYAC's Symphony Orchestra for her last two years of high school. She has always been impressed with the programs' incredible musical level as well as its welcoming atmosphere.

"I believe that my time working here (MYAC) has only reinforced my knowledge that every single faculty, staff, director and volunteer truly cares for the kids in our programs," she stated. "I feel proud to be part of something that wants to selflessly give back so much to a community and its students through musical excellence."
